

## IMPORTANT INFORMATION ABOUT INSURANCE REQUIREMENTS FOR THE 2024 MOTH WORLDS

Under NOR paragraph 19 “Insurance” competitors are required to:-

“Each participating boat shall be insured with valid third-party liability insurance with a minimum cover of NZ\$1,000,000 per incident or the equivalent”.

Competitors from countries outside of New Zealand, must ensure that their existing local insurance policy, includes coverage for international events. Evidence of third-party coverage, will be required prior to registration. New Zealand competitors must also ensure their local NZ policy has the coverage as required above.

For those competitors who do not have such provision within their existing policy, the organising committee will be arranging for cover via insurers here in New Zealand. Details of how to purchase that cover will be announced shortly and will be via the current entry page at Race Roster. Link below.
